SUMMARY

Skilled React developer with 1 year in front-end development and 1.5 years in software testing. Proficient in building responsive web applications using React, JavaScript (ES6+), and REST APIs, with expertise in React Redux and Generic components.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), HTML5, CSS3, Typescript
Frameworks & Libraries	React JS, React Router, Material-UI, React Redux, Bootstrap5, Axios, Styled Components, Reactstrap, Chart-JS , TailwindCSS
API	REST API
Other Tools	JIRA
Source Control	Git, GitHub , Source tree

EXPERIENCE

Front-End Developer

Leora Infotech Private Limited | Gummidipoondi | JAN 2024 – Present

PROJECTS

NBFC | Non Banking Financial Company Website

DURATION : 8 Months

- Developed an interactive **financial data dashboard** for a non-financial banking company using **React JS**, focusing on intuitive user interfaces and seamless performance across various devices.
- Integrated **REST APIs** to fetch and display complex financial data from the backend, showcasing dynamic metrics like account balances, transaction histories, and key performance indicators.
- Built reusable **generic components** (tables, cards, filters, and chart displays) used throughout the project to improve development speed and ensure consistent UI. These components were essential for displaying financial summaries in interactive tables, visualizing trends with **Chart.js**, and enabling users to explore time-based data using sliders.
- Implemented **React Router** for efficient multi-page navigation within the application, allowing users to seamlessly switch between different sections of the dashboard (e.g., account overview, transaction details, and performance reports).
- Managed state with **React Redux** to handle real-time data updates and user interactions, delivering a smooth and responsive user experience.

- Collaborated closely with backend developers to ensure proper data flow from APIs and worked with designers to present data in a visually appealing, user-friendly format that enhances user engagement.

Tech Stack: React.js, HTML, CSS, JavaScript, Chart.js, Redux, Context API, React Router, Material UI

SAS Micro | Food Safety and Training Institute Website

DURATION : 1 Month

- Developed the Landing Page for the institute, focusing on user-friendly navigation, responsive design, and visually engaging layout to showcase key food safety training programs
- Created the Training Courses Page with dynamic course listings, filter options, and integrated registration forms using **React JS**, ensuring real-time updates and a seamless user experience.

Tech Stack - React JS, Bootstrap, Typescript, ReactStrap.

AI Interview Space | Fully Automated Conversational AI Interview Solution

DURATION : 1 Month

- Developed the AI Interview Platform's Landing Page, ensuring intuitive navigation, responsive design, and an engaging layout to highlight key automation features, workflow and benefits
- Implemented a static Interview Report page, redirecting from the landing page using **React Router** and presenting structured report details with static **JSON** for user clarity.

Tech Stack - React JS, Bootstrap, Typescript, React Router.

Associate software Tester

Solverminds solutions and Technologies pvt. lmt | Chennai | JUN 2022 – DEC 2023

PROJECT

MACK | Ship Management Website | Procurement Domain

DURATION : 1 Year

- Conducted manual testing for procurement modules on ship management websites, ensuring smooth transactions and inventory management.
- Collaborated with developers, product managers, and analysts in an **agile** environment, contributing to daily standups, sprint planning, and retrospectives.
- Created and maintained test plans, scenarios, and cases for procurement functionalities to ensure comprehensive test coverage.
- Performed functional, regression, and system testing on web applications to verify features and business logic.
- Documented and tracked software defects in **JIRA**, prioritizing and collaborating with developers to resolve critical issues.
- Participated in sprint cycles, enhancing team velocity by providing detailed testing feedback.

EDUCATION

2015-2019 **B.E(Mechanical)** | Saveetha Engineering College | Chennai | CGPA : 6.92
2013-2015 **HSC** | D.V.D Higher Secondary School | Nagercoil | 82%
2012-2013 **SSLC** | Sri Ramakrishna Matriculation Higher Secondary School | Alangulam | 93%
